

## Bitrue Integration Trade Smarter & Faster

### Description

## Bringing Bitrue's Trading Power to Tealstreet

We're excited to announce the integration of **Bitrue**, one of the leading cryptocurrency exchanges, into **Tealstreet**, the ultimate trading terminal for professional and retail traders alike. With this integration, traders using Tealstreet can now connect their Bitrue accounts and execute trades with precision, leveraging Bitrue's deep liquidity, advanced trading pairs, and security features all from the comfort of Tealstreet's powerful interface.

 Tealstreet  bitrue

# 30% FEE REBATE

Use code: **ZWHLVVE** when creating your Bitrue account to receive a trading fee rebate of up to 30% from March 3 to March 30. To be eligible, register with Tealstreet and complete KYC1, deposit assets of at least \$50 and trade futures on Bitrue. T&Cs apply, link to read more and participate in our bio.

**3 MAR - 30 MAR, UTC+8**

## Why Bitrue?

Bitrue has made a name for itself as a secure, efficient, and innovative cryptocurrency exchange. With support for **over 700 cryptocurrencies**, Bitrue provides traders with a diverse range of assets, margin trading, leveraged ETFs, and staking opportunities. Key features include:

- **Security & Stability** – Multi-level clustering structure with **2FA authentication** and cold wallet storage.
- **Fast & Efficient Trading** – High-speed **matching engine** ensuring rapid order execution.
- **Diverse Trading Options** – Spot, Futures, and **Leveraged ETFs** for dynamic portfolio strategies.
- **24/7 Customer Support** – Always available assistance for traders worldwide.

Now, with Bitrue's integration into Tealstreet, professional traders can maximize their strategies using the advanced trading tools provided by our platform.

## How Tealstreet Enhances Your Bitrue Trading Experience

Tealstreet is built by traders, for traders offering a **high-performance, user-friendly interface** designed for efficiency and precision. With this integration, users gain access to:

### 1. Advanced Chart Trading

Execute and manage trades directly on TradingView-integrated charts. No more switching between screens—analyze and place orders seamlessly.

### 2. Rapid Order Execution

Utilize **one-click order placement**, hotkey shortcuts, and Tealstreet's unique execution features to capitalize on market movements instantly.

### 3. Institutional-Grade Security

With **2FA authentication**, **on-device encryption**, and **IP whitelisting**, Tealstreet ensures that your account remains secure while executing trades on Bitrue.

## How to Connect Bitrue to Tealstreet

Getting started is easy! Follow these steps to integrate Bitrue with Tealstreet and start trading like a pro:

1. **Log into your Bitrue account** and navigate to the API settings.
2. **Generate a new API key**, ensuring that trading permissions are enabled.
3. **Head over to Tealstreet.io** and select **Bitrue** from the list of supported exchanges.
4. **Enter your API key and secret**, then confirm the connection.
5. Start executing trades on **Bitrue via Tealstreet's trading terminal!**

## Maximize Your Trading Potential

With **Bitrue and Tealstreet**, traders can now combine **the deep liquidity of Bitrue** with **Tealstreet's cutting-edge trading technology**—delivering a seamless and efficient experience for crypto enthusiasts and professionals alike. Whether you're executing **spot trades**, leveraging **futures**, or **managing risk with advanced charting**, this integration empowers you with the tools needed to succeed in volatile markets.
