

Bitget: One-way Mode

?????????

Tealstreet now supports [Bitget](#) One-way Mode!

This update includes a round of bug fixes across the board including:

- Improved candle refresh latency

- Bitget reduce auto cancel natively
- Resolved bug with some Bitget symbols not fully loading
- Improved Bitget chart stability
- A variety of other miscellaneous bug fixes

Please note, Bitget One-way mode's liquidation price is not always accurate. However, we expect this to be resolved very soon.

**We want to thank you all for your continued support. Please join us in our Discord server:**
