

Tealstreet: 1.5.32

Description

Update

- **New feature:** Web Browser View widget. Enable in Trade Settings -> Visibility (use for sites like Aggr, TradingView & indicators, Coinalyze, etc)
- Binance: Infinity Stops (enabled by default, visit Trade Settings to revert back to partial stops support)
- Seconds Chart: Restored and fixed (Note: Seconds time frames not yet supported for Bitget)
- Phemex: Chart bug fix
- OKX & Binance: General bug fixes
- Depth Chart overlay market bug fix
- Miscellaneous improvements
