Tealstreet: 1.5.32

Description

Update

– **New feature**: Web Browser View widget. Enable in Trade Settings -> Visibility (use for sites like Aggr, TradingView & indicators, Coinalyze, etc)
– Binance: Infinity Stops (enabled by default, visit Trade Settings to revert back to partial stops support)
– Seconds Chart: Restored and fixed (Note: Seconds time frames not yet supported for Bitget)
– Phemex: Chart bug fix
– OKX & Binance: General bug fixes
– Depth Chart overlay market bug fix
– Miscellaneous improvements
