What is Hyperliquid?

Hyperliquid is a blockchain built for speed, scalability, and financial innovation. Its decentralized architecture allows seamless trading experiences without compromising on transparency or security. With block times as low as 0.2 seconds, the Hyperliquid platform ensures lightning-fast transactions, capable of handling up to **200,000 transactions per second**—perfect for traders who demand real-time precision.

By integrating Hyperliquid, Tealstreet traders can now enjoy a decentralized ecosystem that boasts low fees, **up to 50x leverage**, and zero gas costs on orders. Combined with our advanced chart trading, risk management tools, position tracking, and rapid order execution types, this collaboration sets a new benchmark in trading.
